

Summary

With over 6 years of experience in full-stack development, I specialize in creating robust web applications using .NET technologies, Angular, and TypeScript. I have a strong background in developing dynamic single-page applications (SPAs) and am adept at using GitHub for version control and implementing efficient CI/CD pipelines. I have held senior developer roles, leading teams in delivering high-quality software solutions. My expertise extends to designing and optimizing complex software systems, ensuring scalability, performance, and security across various platforms.

Experience

Accuracy and Quality Ltd (AQTRA) • Al Khobar • Full-time • Hybrid

Full-Stack & Embedded Systems Engineer & Systems Architect - Oct 2025 – Present

- **Enterprise Software Development:** Built a centralized suite of tools for project tracking and resource management across all business sectors.
- **Embedded Systems Development:** Programmed and optimized firmware for embedded devices, ensuring high performance and reliability.
- **Web Ecosystem Management:** Led the end-to-end development of the corporate website and client-facing digital platforms.
- **Media Workflow Automation:** Implemented advanced automation scripts to organize, process, and distribute media content efficiently.

Idea Web Global Technology LLC • Dubai, United Arab Emirates • Full-time • Remote

Full-stack Developer - Jan 2023 – Oct 2025

- **Developed and maintained web applications** using .NET, Angular, and TypeScript, enhancing user experience through dynamic and responsive design.
- Collaborated with cross-functional teams to design and integrate RESTful APIs, ensuring seamless data flow between front-end and back-end systems.
- Optimized application performance by refactoring code and reducing load times, resulting in improved application efficiency and user satisfaction.
- Led code reviews and mentored junior developers, fostering a culture of code quality and continuous improvement.

Idea World Web Ltd • Giza, EGYPT • Full-time • Hybrid

Full-stack Developer - Jan 2022 - Dec 2023

- Spearheaded the development of full-stack solutions using .NET, Angular, and TypeScript, driving improvements in application scalability and performance.
- Led the integration of third-party APIs and services, expanding application capabilities and improving user engagement.
- Conducted thorough code reviews and established best practices for coding standards, resulting in a 20% reduction in bugs and increased code maintainability.

Full-stack Developer - Jan 2020 - Dec 2021

- Led a team of front-end and back-end developers to deliver client requirements, coordinating efforts to ensure timely and quality project delivery.
- Developed end-to-end web applications using .NET, Angular, and TypeScript, driving improvements in application scalability and performance.
- Collaborated closely with designers and product managers to deliver intuitive user interfaces and seamless user experiences across multiple platforms.

.Net Web Developer - Jan 2018 - Dec 2019

- Initiated the transformation of static HTML sites into dynamic ASPX web forms, enhancing user interactivity and application functionality.
- Transitioned into a back-end developer role to develop comprehensive dashboards with custom functions and robust security measures, ensuring data integrity and protection.
- Contributed to the migration of legacy systems to modern architectures, ensuring minimal downtime and seamless transitions for end-users.

EGYSOFT • Giza, EGYPT • Full-time • On-site

Software Developer - Nov 2016 – Sep 2017

- Design, develop, and test real estate and financial software applications.
- Work closely with a team of developers to meet deadlines and deliver high-quality software.
- Collaborate with product managers and business analysts to understand requirements.
- Analyze and troubleshoot software problems
- Stay up-to-date on the latest real estate and financial software technologies.

Modern University for Technology and Information • Cairo, EGYPT • Full-time • On-site

.NET Developer - Feb 2016 – Oct 2016

- Developed and maintained web applications using ASP.NET, contributing to the university's digital transformation efforts.
- Collaborated with cross-functional teams to design and implement web-based solutions for various academic and administrative processes.
- Enhanced application performance by optimizing database queries and implementing efficient algorithms, resulting in improved response times and user satisfaction.
- Assisted in the integration of third-party services and APIs, extending the functionality and reach of university applications.
- Participated in code reviews and team meetings, sharing insights and best practices to improve overall code quality and project outcomes.

KOTB SYSTEMS

Kotb Systems • Cairo, EGYPT • Full-time • On-site

Software Developer - Jan 2014 – Dec 2015

- Software Development: Developed custom Visual Basic applications to address specific business needs within the hotel industry.
- Database Management: Proficient in SQL Server, specializing in database design, optimization, and creation of complex stored procedures.
- Industry Focus: Specialized in developing HR, payroll, and fixed asset management software for the hotel sector.

EDUCATION

BENHA UNIVERSITY • FACULTY OF LAW

BACHELOR 2014-2018

THE AMERICAN UNIVERSITY IN CAIRO • COMPUTER SCIENCE

DEPLOMA 2013

Certifications

- ASP.NET Developer Diploma (*Oct 2015*)
- Java J2SE + J2EE Diploma (*Mar 2016*)
- Oracle PL/SQL Advanced Diploma (*Dec 2017*)
- ASP.NET Core, Angular Full Stack Online course (*Sep 2019*)
- Data Analysis Professional Nanodegree Program (*Nov 2022*)

Languages

- Arabic (*Native*)
- English (*B2*)
